

5.0.0 / 2018-01-17

Mocha starts off 2018 right by again dropping support for *unmaintained rubbish*.

Welcome [@vkarpov15](#) to the team!

Breaking Changes

- **#3148: Drop support for IE9 and IE10** ([@Bamieh](#))

Practically speaking, only code which consumes (through bundling or otherwise) the userland [buffer](#) module should be affected. However, Mocha will no longer test against these browsers, nor apply fixes for them.
